

International Sourcing

Payer Matrix can connect clients with international sourcing vendors to help meet their needs. For clients interested in international sourcing, we facilitate the coordination of services as part of our advocacy and commitment to finding the best funding solutions. The simple implementation process requires no contract, no vendor changes, and no upfront fees and can be completed in as little as 24 hours. The solution only includes the fulfillment by Canadian pharmacies.

Initial Assessment

The Payer Matrix team assesses member eligibility.

Consent

Member agrees to the program by signing the authorization form.

Scheduling Shipment

Member calls the international sourcing vendor directly to schedule shipment of medication

Communication

A care coordinator (CC) will communicate eligibility to the member and discuss next steps.

Prescription Transfer

A CC requests that member's provider send the prescription directly to the international sourcing vendor.

Prescription Delivery

Medication typically arrives within 3-5 business days, after prescription is provided.

About International Sourcing:

- **Stop Loss Discounts**
 - Offers discounts for diabetic medications, most brand drugs, and more.
