Elevanta Health website

The Elevanta Health website, www.elevantahealth.com, offers quick and easy access to medical, dental, and vision summary plan descriptions (SPD). You can also find a uniform glossary of terms commonly used regarding health plan coverage, as well as other helpful forms and documents.

Medical and Dental Plan websites

Information on local Medical and Dental providers can be found by going to <https://provider.bcbs.com>. Put in your location and the 3-letter prefix for **YOUR PLAN** is **NFI**. You can search by Category, Specialty, Name, or Facility.

Many BCBS dentists participate in the **GRID** program. It's a program that enables dentists to see patients from other participating Blue Cross Blue Shield plans at their local-plan reimbursement levels. If you cannot locate your dentist at <https://provider.bcbs.com>, try going to the GRID lookup site at <https://provider.cbabluevt.com/dental/search-dental-providers.aspx> and look for your dentist there.

Vision Plan website

Vision Coverage is through United Healthcare which ***does not issue cards***. You can locate providers by going to www.myuhcvision.com or calling (800) 638-3120. You can also print cards from the website once you register.
